RAINWATER HARVESTING
Do You Harvest Rainwater?
If Not, Start Today!

Rain Water Harvesting

Rain-Water Harvesting

Rainwater collecting is an important method of water conservation that can help ease water shortages and lessen the pressure on the environment caused by traditional water sources. With the increasing demand for sustainable solutions to address the water crisis, rainwater harvesting has become a popular and successful approach.

The website project was done with the purpose of creating a platform for the dissemination of information about rainwater harvesting to a large audience. The website sought to offer in-depth details about the advantages of rainwater harvesting, the many methods used, and helpful advice on how to put a rainwater harvesting system into place.

Why do we Harvest Rainwater?

The rainwater harvesting system is followed to support the conservation of water. Today, scarcity good quality water has become a significant cause of concern.However,rainwater,which is pure and of good quality, can be used

Government

In order to boost water conservation and rain water harvesting in the country, Ministry of Jal Shakti has taken up a nationwide campaign "Jal Shakti Abhiyan - Catch the Rain"

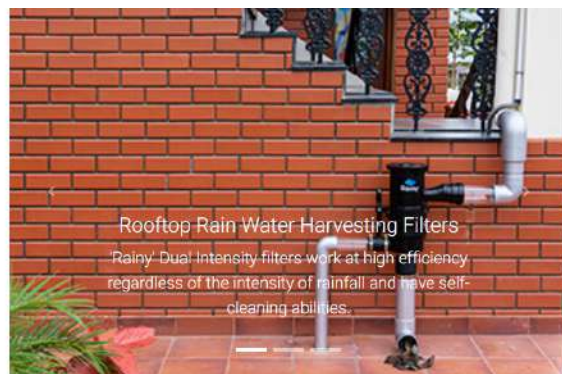

Advantages

Easy installation and maintenance , Rainwater harvesting is an independent source of water, Rainwater harvesting helps reduce water bills , Rainwater harvesting is use for irrigation, Rainwater harvesting

How to get started?

The technology has made Installation of Rain-water Harvesting much easier than you think. There is a website called Aquafilters which provide there customers with easy to use interface to order your own rain water harvester that will help you to save your water bills and most of all the nature.

LET'S GO!

Rooftop Rain Water Harvesting Filters
'Rainy' Dual Intensity filters work at high efficiency regardless of the intensity of rainfall and have self-cleaning abilities.

Today's Quote

"Colors shone with exceptional clarity in the rain. The ground was a deep black, the pine branches a brilliant green, the people wrapped in yellow looking like special spirits that were allowed to wander over the earth on rainy mornings only."
